The retail environment is changing.

Do you have the most capable hardware, consumables and software to meet evolving consumer and industry trends?

Retail Refresh

Do you need to print labels and tags on demand?

Label Printers and Consumables

Did you know that having a good label printer can add value to your business and elevate your customer experience? These are 8 important reasons why having an on demand label printer can be a critical component for retailers:

1. Print on demand so you can quickly go back to serving your customers
2. Print on the go: fix errors and changes instantly to avoid any customer confusion
3. Cut overheads of outsourcing labels by printing your own labels
4. Apply to new products instantly so you can quickly start selling them
5. Create custom labels, such as personalisation for customers to elevate their experience
6. Update packaging/product labels so you can immediately return them to the shelf
7. Allow for easy recognition of product information and identification, for both staff and customers
8. A fast label printer allows quick printing of shipping labels, so you can ship more, faster

Thermal Transfer (TT)

• Lasts longer, more stable, clearer and will not fade compared to DT
• Suitable use for in more challenging conditions and environments
• Ideal use where labels need to last a long time eg. product identification labels and barcodes

Direct Thermal (DT)

• More cost effective then TT
• Prone to fading overtime as it is sensitive to light
• Good solution for short term/temporary eg. price and food labels
• Simpler due to its ribbon-free mechanics

Honeywell PC42

Label Printer
Improve label making productivity

(Read More)

PC42TPE01316. Thermal Transfer
PC42DHE033016. Direct Thermal

• Economical light duty label printing

• Industry Standard USB, Serial and Ethernet Ports

• Direct Protocol, ZSIM and ESIM Program Support

• Supports a wide range of media and long ribbon length, up to 300m

• User replaceable Printhead and Platen Roller

• Includes BarTender Ultralite label printing software

• 12 Months Warranty with Extended Maintenance Contract Options

HPRT LPQ0

Thermal Label Printer
Compact and stylish desktop printer

(Read More)

LPQ80B

• Ideal if your thermal printing is on a tight budget

• Available in full White and Black, as well as models with Blue or Red highlights

• Quick and easy paper roll replacement

• Supports printing on an external paper source

• Supports 3 types of label roll inner core diameters

• User replaceable printhead

• Includes BarTender Ultralite label printing software

• 12 Months Return to Base Warranty

Zebra ZD220

Label Printer
Basic features for simple operation
